

Dress for Success

An interview is not the venue to show off that new outfit. This is a chance to make a professional impression with your possible new employer, not a fashion statement. Here are some Do's and Don'ts to remember as you prepare for the interview.

Do:

Wear a professional suit in a dark color (black, navy or charcoal).

Make sure your outfit is pressed and wrinkle free.

Ties should be conservative. Blouses should be pressed and conservative as well.

Jewelry and cologne should be minimal.

Hair (including facial hair) should be clean and neat.

Wear shoes that look professional and are shined.

Don't:

Dress too casual.

Douse cologne all over your clothes.

Wear large clothing with brand names or logos printed on them.

Dress too provocatively.
